

Building Skills. Shaping Futures

Skill Education Solutions for Preschools and Schools

We design and deliver structured skill education programmes, activity-based learning solutions, curriculum resources, DIY kits and experiential learning environments for children across different stages of school education.

Two brands. One Vision

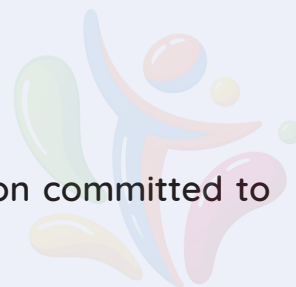

- Skill Education
 - Activities
 - Kits
 - CAMPS Curriculum
- Pre-Primary to Grade 5**

- Skill Education
 - Skill Labs
 - Experiential Learning
- Grades 6 to 12**

Learn. Create. Experience. Build Skills.

Who We Are

MySkool Learning Private Limited is an education-focused organisation committed to making skill education practical, structured and experiential.

Our Vision

To build a generation of confident, capable and future-ready learners through meaningful skill education and experiential learning.

Our Mission

To make skill education an integral part of school learning by creating practical, engaging and structured learning experiences that help children learn, create, explore

Our Belief

Education should not only prepare children to know, it should prepare them to do.

Our approach is centred around one simple belief: Children learn better when they experience, explore and create.

We work with preschools and schools to bring learning beyond textbooks through carefully designed programmes, activities, kits, curriculum support and hands-on learning environments. From early childhood activities to structured skill education in higher grades, our solutions are designed to help learners develop creativity, communication, problem-solving, critical thinking, practical understanding, confidence and real-world skills.

What We Do

Skill Education Programmes	Activity-Based Learning	Experiential Learning Solutions
Curriculum-Linked Activity Kits	DIY & Project- Kits	Summer Camp Solutions
Skill Education Curriculum Support	Composite Skill Labs & Lab-Based Learning	Teacher Training & Upskilling

PEDASKILLS

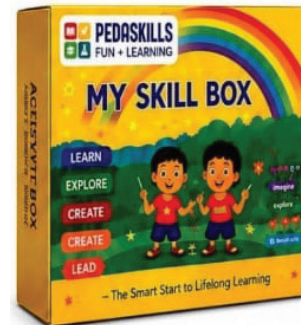

Pre-Primary to Grade 5 Foundational Learning

Pedaskills focuses on building foundational skills through age-appropriate activities, structured programmes and hands-on learning experiences.

Pedaskills Products

Activity Kits

An individual, age-appropriate activity kit for every child, containing all the materials needed for hands-on learning, creativity and skill development. Each kit is designed to make learning engaging, practical and fun.

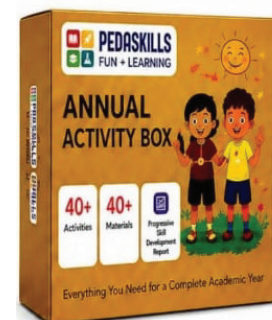

Summer Camp Kits

Complete activity resources for engaging, creative and meaningful summer programmes.

Pre-School Activity Box

A ready-to-use activity box for preschools, equipped with essential learning materials and a teacher-friendly activity manual. It enables teachers to conduct engaging, structured and age-appropriate hands-on activities with children.

CAMPS Kits – Grade 1 to 5

Curriculum-linked skill activity kits supporting regular school-based skill development.

SKILLVATION

Grade 6 to 12 Turning Skill Education into Experience

Skillvation is our dedicated Grades 6 to 12 skill education initiative, designed to help schools create meaningful opportunities for students to learn through practical experiences. We focus on developing learning environments where students can work with tools, materials, projects and real-world applications.

Our solutions support schools through:

01

Skill Education
Curriculum

02

CBSE-Aligned
Composite Skill Labs

04

Skill Labs for State Board
& ICSE Schools

03

Experiential
Learning

05

Project-Based
Learning

06

Student DIY &
Project Kits

07

Teacher Training &
Upskilling

Skillvation focuses on creating structured skill education and experiential learning environments for secondary and senior-school learners.

Composite Skill Labs for CBSE Schools

The Composite Skill Lab can support activities across broad skill domains such as:

LIFE FORMS

Food | Food Production | Herbal Heritage

MATERIALS & MACHINES

Coding | Design thinking | Robotics | AR/VR | Photography | Apparels | ECE | Media

HUMAN SERVICES

Beauty and wellness | Health care | Tourism | Digital citizenship | Financial literacy

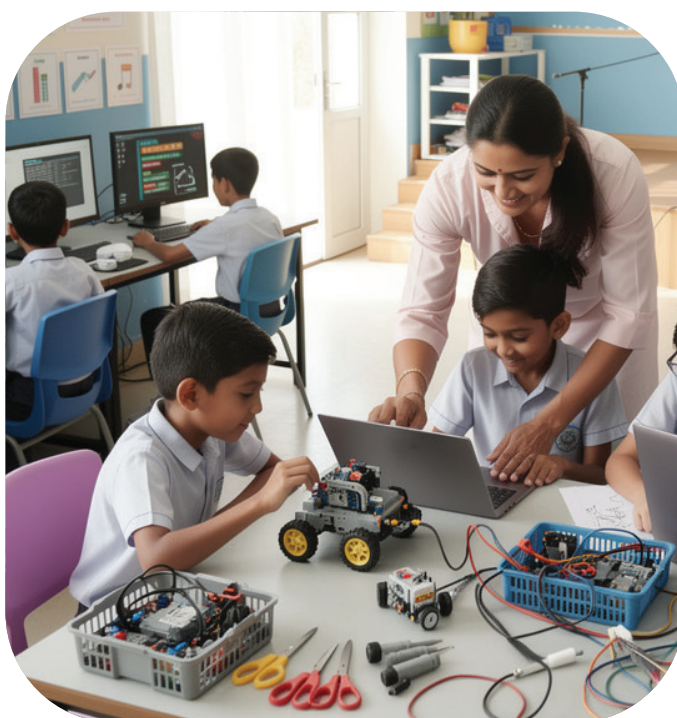

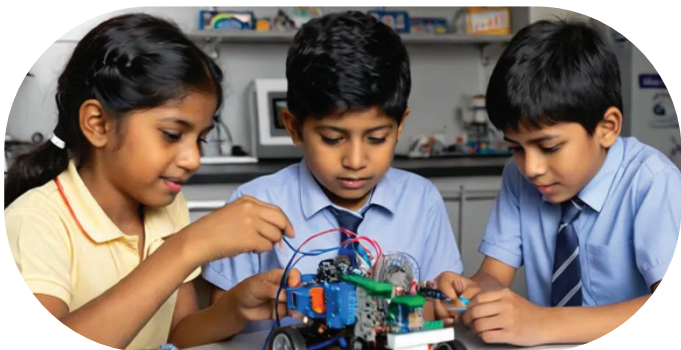

Activities and resources can be mapped to the school's selected skill subjects, curriculum requirements and student projects.

Our Packages include:

- ✓ Skill Lab Infrastructure
- ✓ Furniture & Workstations
- ✓ Tools & Equipment
- ✓ Subject-Specific Materials
- ✓ Teacher Demonstration Kits
- ✓ Student Project Kits
- ✓ Activity & Project Resources
- ✓ Lab Implementation Support

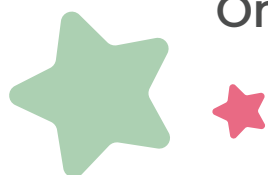

Skillvation Lab For State & ICSE Schools

Skillvation also develops flexible skill lab environments that can be adapted to the requirements and learning objectives of State Board and ICSE schools. Our objective is to transform the skill lab from simply being a physical space into an active learning environment where students develop practical understanding and confidence.

COMPLETE SCHOOL SOLUTIONS FOR SKILL EDUCATION

One education partner. Multiple skill solutions.
